REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1-8, 15, and 16 is the inclusion of an apparatus and steps of lowering percentage of toner covering an image area on the photoconductor when the potential of the image area after transfer is detected. This is found in all of claims 1-8, 15, and 16, but not disclosed nor suggested by the prior art of record.

The primary reason for allowance of claims 9-14 and 17 is the inclusion of an apparatus and the steps of detecting a film thickness of the photoconductor to perform feedback control of a middle potential so that a developing electric field becomes constant based on the detected film thickness. This is found in all of claims 9-14 and 17, but not disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
